SUSAN OPPENHEIMER

My toe nails were in a terrible damaged state mostly from running and I was told to try a Bio-Gel pedicure. My first attempt was a disaster so I decided to Google and found Dani! She replied to my email immediately and I thought I'm going to like this lady she can communicate!

Dani has managed to make my toes look almost pretty again which is why I have been visiting her once a month since 2011. She now does more than a pedicure- I call it my medi-pedi preventing my toe nails from becoming a problem.

ALI SAMPSON

I have been visiting Dani for over a year having regular Bio Sculpture Gel nails and pedicures. I found Dani on the internet and live 10 minutes from her. My nails were in a bad state, especially a very damaged thumb nail which was impossible to hide. To be honest, I didn't hold out much hope that anything could be done for me. **How wrong I was!**

Following my first appointment I had neat, tidy, attractive hands that I could be proud of. Dani teaches you how to maintain your manicure and pedicure between visits using cuticle oil and hand and foot creams. I have 3 weekly appointments for my nails and 6 weekly for pedicures. The pedicures are the best I have ever had and I really look forward to them. I tend to choose dark colours which look better on me and also seem to be more durable. My favourites are grey, navy and aubergine.

Dani has become a friend who listens, chats and makes a nice cup of tea and will always try her absolute best to accommodate your requirements if she can. I always book my appointments way in advance and it's a great feeling to know that your hands will never let you down.

JUDY STERN

I have to thank Google for finding Dani 3 years ago. My nail lady had let me down and I was desperate to find someone local, so I googled "nails" and "Bushey" and there she was! I checked the references on her website, thought they were excellent, picked up the phone- and the rest is history. Dani has lived up to the references and I so look forward to my appointments- firstly because she takes such good care of my rather weak nails and secondly because she is a mine of really useful information and contacts- from sacro cranial oosteopaths to builders.

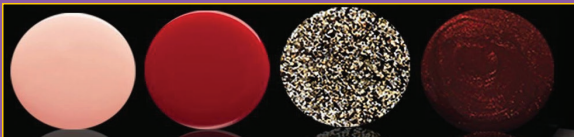

Now all Dani needs to do is persuade me to be a little more adventurous in my choice of gel colour. Every time I see the new season's colours I get very enthusiastic, but then when Dani asks me to choose a colour, I stay with the reds and purples. Never mind- they still look fabulous!
